

ALASKA WEED FREE
CERTIFICATION PROGRAM

Certificate of Inspection

Date of Inspection: ____/____/____

Inspection history: ____ 1st year ____ 2nd year ____ 3rd year ____ 4 or more years (specify)

This certifies that the field or gravel pit described herein has been inspected according to the North American Weed Management Association (NAWMA) and Alaska Certification Standards. The objective of the program is to help prevent and slow the speed of the Designated Noxious Weeds by providing forage, bedding, mulch and gravel/borrow material that is free* of the potential for transport and dispersal of listed weed species.

Level of certification:

A. EXCEEDS requirements of the NAWMA certification standards in Alaska and contains only the specified forage/gravel/borrow/ material with no non-native plants noted.

B. MEETS requirements of the NAWMA certification in Alaska. *This forage/gravel/borrow material contains variable amounts of prohibited or noxious weed species which were immature, (no viable seed) when treated to prevent seed formation. These plant parts, although not usually desirable in the gravel/borrow material, are considered unable to begin new infestations.

(Weeds noted): _____

C. FAILED Explanation: _____

Additional comments: _____

REQUIREMENTS

Forage must be certified to NAWMA and Alaska Certification Standards within 10 days of harvesting and inspected in the Field of Origin by proper officials. Inspection shall include surrounding ditches, fence rows, easement, and loading and stack yards. This certification terminates on: Date: ____/____/____

Gravel/borrow material must be certified every 30 days (unless exempted) to the NAWMA and Alaska Certification standards and inspected by proper officials. Inspection shall include, but not limited to, surrounding ditches, top soil piles, gravel/sand piles, fence rows, roads, easement, rights-of-way, working areas, storage areas and a buffer zone surrounding the area. This certification terminates on: Date: ____/____/____

Certified by: _____ Title _____

***Disclaimer:** Certified gravel/borrow material may have viable seeds from previous years. Plant seed can not be killed by registered pesticides. Certification consists of a prudent and visual inspection for that year (s) certification for this pit. Previous years may have had seed drop that can still be viable. This is a buyer beware program.
